1. What the Executive role can do

Executive (Exco)

Your role in NovaHR

As an executive you have read-only access to all dashboards, reports, and compliance records in the company. You can see everything HR can see in terms of strategic metrics, but you cannot make any changes: no editing employees, no running payroll, no approving leave, and no changing settings. Your role is oversight and informed decision-making.

What you can see

- Executive overview dashboard with all KPIs
- Workforce reports: headcount, departments, types
- Full payroll reports: cost trends, YTD totals, composition
- Leave reports: usage by type across the company
- Compliance status: PAYE, UIF, SDL return tracking
- All employee profiles (read-only)
- Public holiday calendar

What you cannot do

- Edit any employee record
- Approve or reject leave requests
- Start or complete payroll runs
- Change any company settings
- Invite or remove users
- Submit compliance returns
- Export payroll data or payslips

2. Logging in

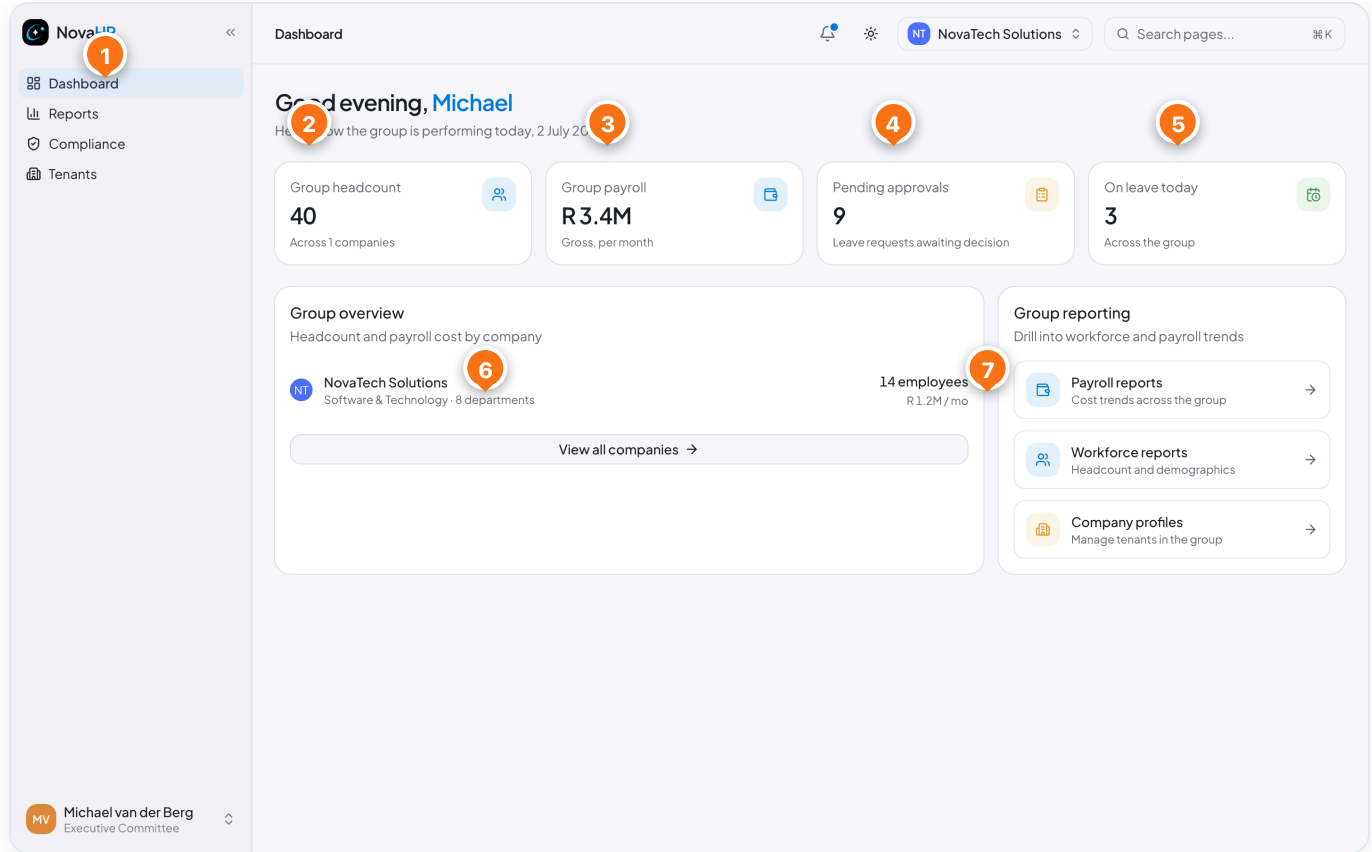

- 1 Go to novahr-five.vercel.app. You will see the login page if you are not already signed in.
- 2 Enter your email and password (set when you accepted the invitation from HR).
- 3 Click **Sign in**. You are taken to the executive dashboard with a full organisational overview.

Forgot your password? Click *Forgot password* on the login page to receive a reset email. If you never received an invitation, contact your HR administrator.

3. Understanding the executive dashboard

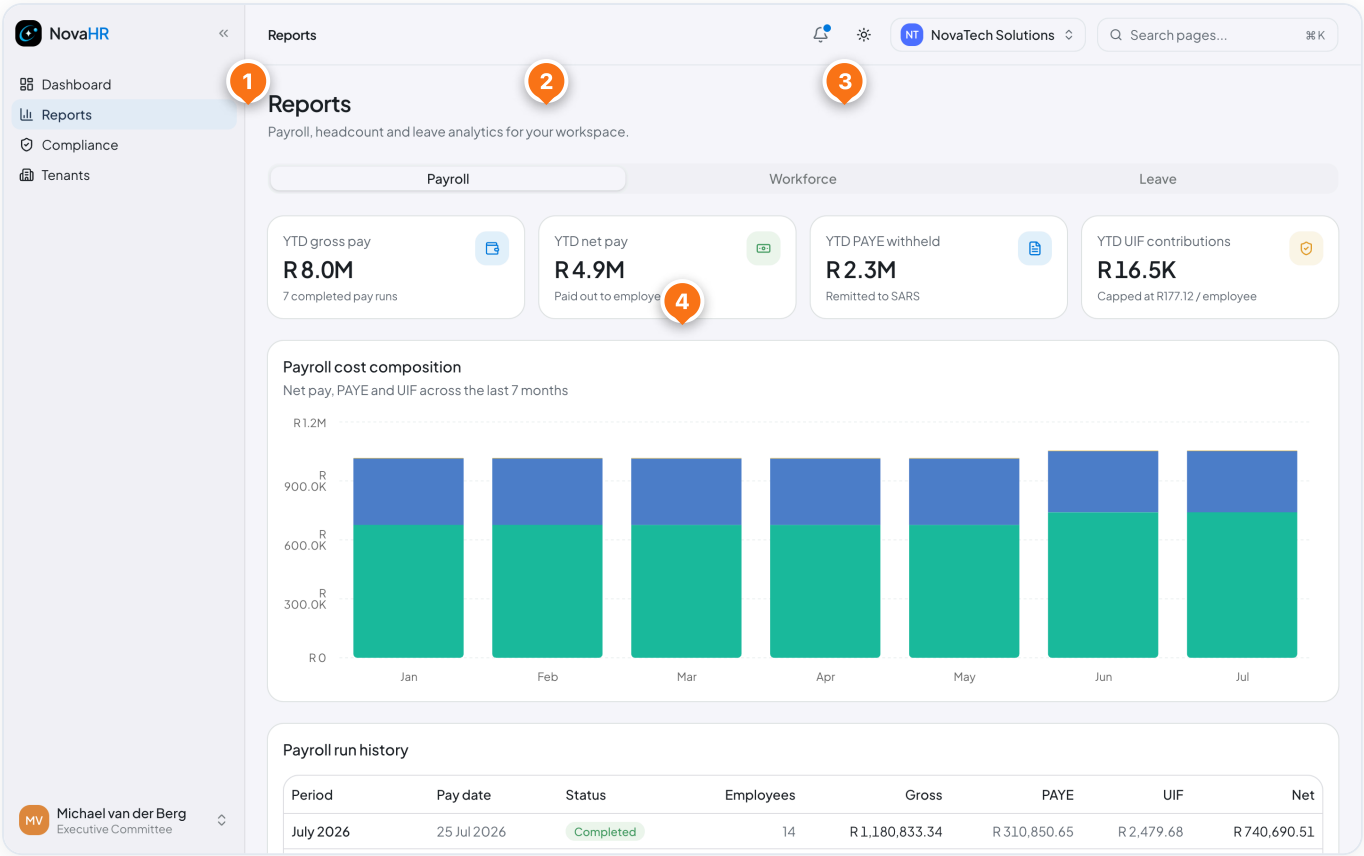

Company-wide KPIs at a glance

- | | | | |
|---|---|---|---|
| 1 | Sidebar navigation: Dashboard, Reports, Leave, Compliance | 2 | Total headcount with today's leave status |
| 3 | Pending leave approvals across the company | 4 | Total team payroll cost for this month |
| 5 | Number of team members on leave today | 6 | Team member list with current status indicators |
| 7 | Leave approval summary (read-only view) | | |

4, 5 and 6. Reports and analytics

Three dashboards covering workforce, payroll, and leave

- 1 Workforce tab: headcount, types, departments

3 Leave tab: usage by type over time
- 2 Payroll tab: cost trends, composition, YTD

4 Charts and data tables for the selected report

• Workforce analytics

The Workforce report gives you a people-level view of your organisation:

- **Headcount trend:** how many active employees over time, useful for tracking growth
- **Employment type split:** full-time vs. part-time vs. contract, useful for capacity planning
- **Department breakdown:** headcount per department with percentage of total

• Payroll analytics

The Payroll report shows company payroll cost data:

Metric	What it tells you
Monthly gross payroll trend	How total payroll cost has moved over the last 7 months
Net vs. PAYE vs. UIF chart	Breakdown of where the gross goes: employee net, tax, and levies
Year-to-date total	Cumulative payroll spend for the current tax year

You can see total payroll cost but not individual employee salaries from the Reports view. To see individual salaries you would need to look at the Employees section and navigate to a specific person's compensation tab.

- **Leave analytics**

The Leave report helps you spot patterns in how the team uses their leave:

- **Leave by type chart:** how many approved days each leave type accounts for
- **Leave usage trend:** approved leave days over time
- High sick leave usage in a specific period may indicate a team-wide health issue or morale problem worth investigating

Filing history: status per period (Pending, Submitted, Accepted, Rejected)

The Compliance page shows you the statutory tax position for the company. As an executive this is read-only: you can see the amounts and filing status but cannot update them. Only HR administrators can record a submission or mark a return as accepted.

Status	What it means
Pending	Tax calculated but not yet filed with SARS
Submitted	Filed with SARS; awaiting confirmation
Accepted	SARS confirmed the return
Rejected	SARS returned the filing; HR needs to re-file

 If you see returns stuck in **Pending** past the filing due date (7th of the following month), flag this to your HR administrator immediately. Late EMP201 filings attract SARS penalties.

Go to **Leave** in the sidebar to see all leave requests across the company. As an executive you have a read-only view: you can see who has requested what and the approval status, but you cannot approve, reject, or submit leave requests.

Use the **Public holidays** tab on the Leave page to see the full SA public holiday calendar for 2026, 2027, and 2028. This is useful for planning team availability and scheduling around national holidays.

Question	Where to find the answer
How many employees do we have?	Dashboard stat card (top left) or Reports > Workforce
What is our monthly payroll cost?	Dashboard (payroll stat card) or Reports > Payroll
How much have we spent on payroll this year?	Reports > Payroll > Year-to-date total
Are our tax returns up to date?	Compliance page (look for any Pending or Rejected statuses past the due date)
How many people are on leave today?	Dashboard stat card (top right)
What leave is coming up this month?	Leave page (filter by date)
Which department is biggest?	Reports > Workforce > Department breakdown
What is the split between full-time and contract?	Reports > Workforce > Employment type

Getting help

If you need to make a change (for example updating your own profile, correcting a compliance record, or getting a salary report), contact your HR administrator. For platform support, email: **mtshwenewesley@gmail.com**
