

HR, leave and payroll. Built for South Africa.

NovaHR gives small and medium businesses one modern workspace to manage people, track leave and run fully compliant payroll, without spreadsheets or guesswork.

✓ SARS 2026/27 tax tables

✓ BCEA leave framework

✓ PAYE, UIF and SDL ready

✓ POPIA aware

Everything HR, in one place.

Six connected modules replace the spreadsheets, email threads and manual calculations that eat up your month end.

Employee management

A searchable directory with rich profiles: job details, compensation, banking, emergency contacts and a guided four step onboarding wizard.

Leave management

All nine statutory leave types, automatic working day counts that skip weekends and public holidays, and one click approvals.

Payroll

Verified SARS 2026/27 calculations, branded PDF payslips emailed automatically, and bank ready EFT or Netcash payment batches.

Compliance

PAYE, UIF and SDL returns generated per period with statutory due dates and status tracking toward EMP201 submissions.

Reports and dashboards

Headcount trends, leave usage and payroll cost analytics, with a live dashboard tailored to every role in the business.

Security by design

Every request is authenticated server side, data is isolated per company at the database level, and sensitive fields never reach the wrong screen.

9

SA statutory leave types
built in

2026/27

SARS tax year, verified
against official tables

4

role based workspaces: HR,
manager, employee, exco

14 days

full feature trial for every
new company

Run payroll in minutes, not days.

Start a run, review the numbers, complete. NovaHR calculates every payslip against the current SARS tables and delivers it to your team automatically.

Full PAYE engine

All seven tax brackets, age based rebates and medical aid tax credits, calculated from each employee's profile.

UIF and SDL handled

Employee and employer UIF with the statutory ceiling applied, and SDL only when your payroll crosses the threshold.

Allowances and retirement

Travel and housing allowances, pension and retirement deductions applied within statutory limits.

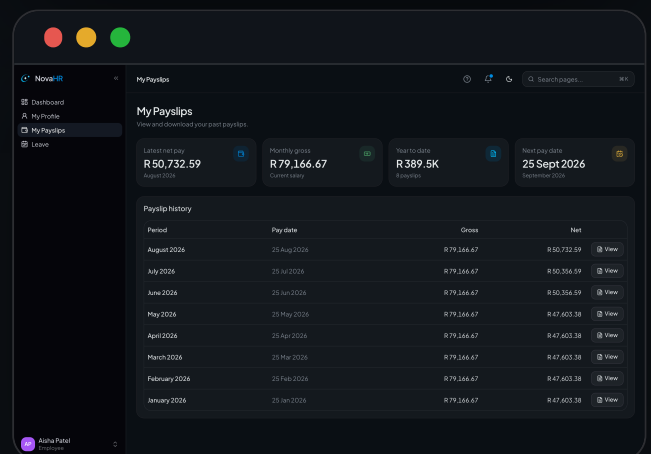

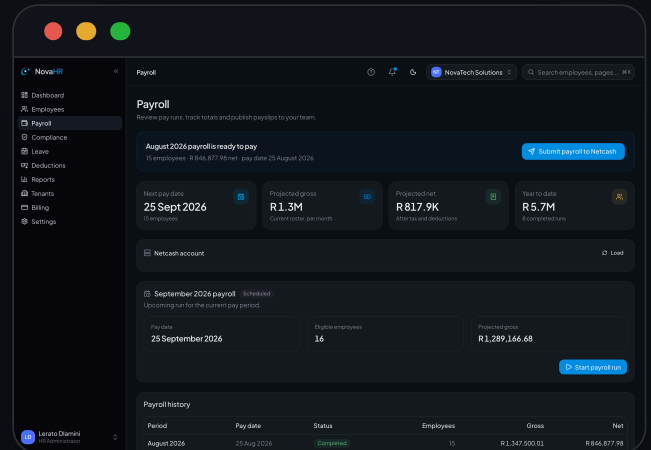

Payslips, delivered

Branded PDF payslips with your logo and colours, viewable in app and emailed to every employee the moment a run completes.

Pay your team directly

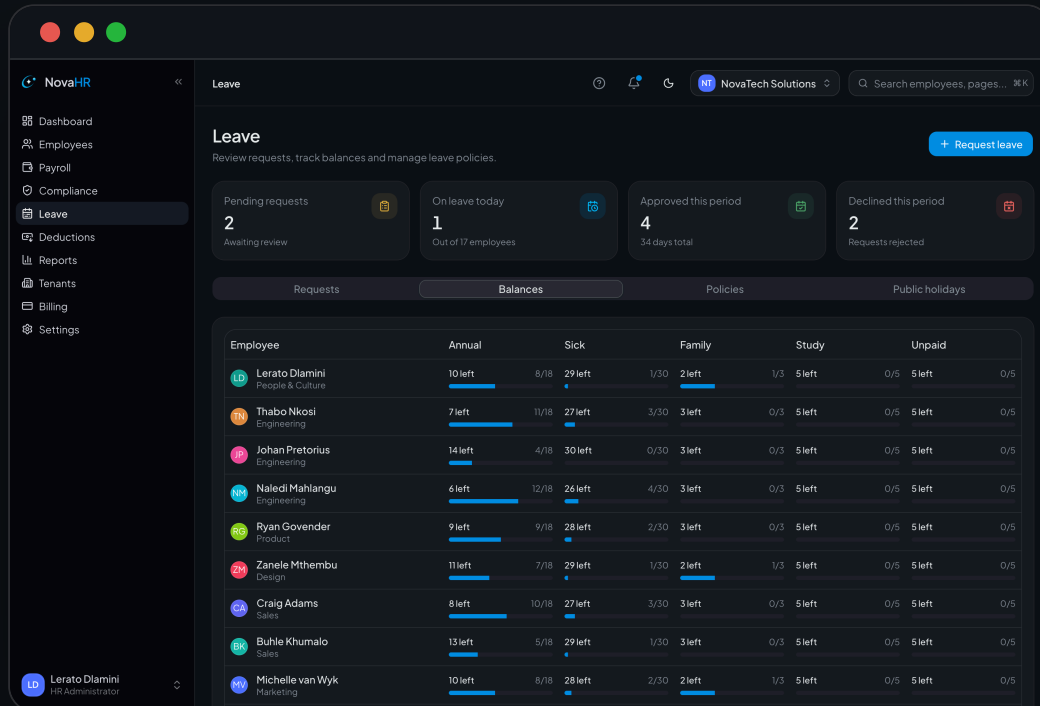

Export a standard EFT file or send the salary batch straight to Netcash from inside NovaHR.

Verified against SARS. The payroll calculator is tested against the official 2026/27 tax tables, so the PAYE, UIF and SDL on every payslip match what SARS expects.

Statutory leave, without the law degree.

Every South African leave type is built in with the correct entitlement. Balances update themselves, and public holidays are never miscounted.

Annual
18 working days a year

Sick
30 days per 36 month cycle

Family responsibility
3 days a year

Maternity
4 months

Parental
10 consecutive days

Adoption
10 weeks

Commissioning parental
10 weeks

Study
5 days a year

Unpaid
5 discretionary days

The calendar does the counting. Leave is measured in working days: weekends and every South African public holiday are excluded automatically, including holidays observed on a Monday.

HR admins

Run the whole workspace: people, payroll, compliance and settings.

Managers

See their team, approve leave and keep work moving.

Employees

Self service profile, payslips and leave requests from any device.

Executives

Read only oversight with dashboards, reports and compliance status.

TRUST

Your people's data, protected at every layer.

Isolated by company

Each business gets its own walled workspace, enforced down to the database row. Your data never mixes with anyone else's.

Checked on the server

Every action is authenticated and authorised server side. The browser is never trusted to decide what a user may see or do.

Salaries stay private

Pay, banking and ID numbers are stripped from what non privileged users receive, so they never even reach the wrong device.

POPIA minded

Privacy policy and terms written for South African law, with encrypted transport and security headers on every response.

PLANS

STARTER

R499/month

Up to 10 employees

GROWTH

R999/month

Up to 30 employees

SCALE

R2,499/month

Unlimited employees

Every new company starts with a 14 day trial of the full platform. No card required.

Spend your time on people, not paperwork.

NovaHR is part of the Nova Business OS suite of tools built for South African businesses, alongside NovaPOS and NovaFinance.
